FOR PRESIDENT,
WILLIAM HOWARD TAFT.

Rochester, N. Y., has a citizen who is the proud possessor of two hearts. And this is leap year, too!

A Maryland legislator has introduced a bill providing jail sentences for gossips. How many jails are there in Maryland?

Those who have rushed to the conclusion that the President's failure to win a majority of the delegates from Ohio marks the end of the Taft candidacy, are not correct in their conclusions.

To Fight It Out. This fight is not a fight for personal advantage or selfish ambition on the President's part. Mr. Taft feels that he stands for a great cause. Whatever else happens, he will carry the war through to a conclusion.

If the loss of 33 out of New York's 30 delegates to the Chicago convention did not cripple the Roosevelt candidacy at a time when the Colonel had practically no delegates, it is a little difficult to see why the loss of 30 or 32 out of Ohio's 48 delegates to Chicago should be fatal to the Taft candidacy, at a time when the President has already secured enough delegates to put the nomination fairly within his grasp.—Times Star.

William Barnes, Jr., Chairman of the Republican State Committee of New York, issued the following statement:

Speaks For New York.

The result in Ohio has possibly added enough delegates to the Taft column to insure his nomination, but those Republicans whose purpose is to prevent the Republican party being used as an agency to subvert democratic form of government in America and establish, through defeating the voters, an autocracy in its place, should relinquish all effort in making it clear to those who do not comprehend what is going on to stand fast in their allegiance.

All questions relating to the coming campaign have sunk into insignificance compared to the preservation of our form of government.

"It must be a source of congratulation to the straight-thinking people of the United States that but for a scattering few the voice of New York will be steadfast at Chicago.

"I have no doubt when that convention assembles there will be delegates there who have been favorable to the nomination of Mr. Roosevelt before they realized the real psychology of his candidacy, but will act as patriots rather than servitors. The contest will come between mental courage and physical cowardice."

Would it be irreverent to suggest that the Queen Mary, Great Britain's new dreadnaught is appropriately named?

Boston citizen kissed a letter from his girl and got the mumps. As a rule however, love letters cause heart failure.

At this time of year the average citizen finds himself strongly in sympathy with the doctrine of coal conservation.

President Roosevelt formerly called reciprocity "the hand-maid of Protection." Colonel Roosevelt is now explaining to the Western farmers that when he endorsed reciprocity he thought he understood it—but he did not. The political "right about face" doesn't bother him.—Colfax (La.) Clipper.

Home Study Class.

Chicago Post.

The ordinary capacity of the lungs is 320 cubic inches. Mr. Roosevelt and Mr. Taft use, therefore, 2,876 cubic miles of air each day.

The capacity of the stomach is about five pints. The young man who sees his best girl drink 20 glasses of soda water in an evening may not believe this.

There are a few more than 2,000,000 pores on the body. Each connects with a perspiration duct a quarter of an inch long. There are nine miles of these ducts under the skin. Next August you will be able to cool off about one mile of them by sitting beneath the electric fan.

The average man consumes one ton of solid and liquid nourishment during a year. Vegetarians may look at a ton of hay and think.

Six muscles move the lobe of the eye. This explains why we see so much more than we should at times.

There are 30 bones in the ordinary head. In others there are only one.

HOLES IN HER STOCKINGS.

Boston Globe.

The eternal feminine crops out in the current story of the nervous woman to whom the throat specialist, while adjusting a laryngoscope preparatory to an examination, remarked:

"Madame, you'd be surprised to hear how far down we can see with this wonderful instrument."

A pause followed and then the patient faltered: "Doctor, before you begin, perhaps I ought to tell you that I really hadn't time to mend the holes in my stockings before I came here."

Her expression of concern over appearances was as instinctive as that of the tidy New England mother, who rushed from the kitchen into the hall after a crash and inquired if any oil had been spilled on the carpet when her daughter fell down the front stairs with a kerosene lamp.

The Kentucky Prison Commission has rejected a claim for \$71,000, made by the Hoge-Montgomery Company, contractors for prison labor.

YANCEY'S NEW INVENTION

The above picture shows Baschang, Lexington's "star" third-baseman, using one of Manager Hogan Yancey's patent "basket gloves." Manager Yancey did not intend to use the glove this season, but after seeing Lexington make the ten errors in Thursday's game, he thought it would not hurt to at least give it a try. This glove will be used exclusively by the Lexington club.

The U. S. WEATHER BUREAU

Says that the wet spell is over and we will now be permitted to enjoy spring. Kind of him, isn't it? Well, nearly everybody likes to "spruce up" in spring; repair the porches, put up screens, put a window in a dark room or maybe put in a new front door. It makes no difference whether it's a single board or an entire building we can furnish it.

HON. FRANK J. CANNON.

HON. FRANK J. CANNON, who is to appear on the Chautauquas this season as one of the leading speakers, was formerly United States senator. He is a son of the first counselor of the Mormon church, George Q. Cannon. For years he has been fighting polygamy in the Mormon church. When the Mormons pledged themselves to do better he intervened for them with President Cleveland and saved them at a time when they were threatened with disfranchisement. He took a prominent part in the public affairs of the Mormons, all the time depending on their promises of reform. He opposed the election of Apostle Reed Smoot to the senate, and when Smoot was finally seated Cannon withdrew from Utah, believing that little more could be done at least for some time. He moved to Denver and joined the editorial staff of the Rocky Mountain News. He secured a leave of absence for the past winter to fill dates on the lyceum platform and in his lectures and by articles in Everybody's Magazine started a movement against the spread of Mormonism. The subject proved so interesting to audiences that he will hereafter give all his time to lecturing.

The readers of this paper will be pleased to learn that there is at least one medical discovery that science has been able to cure in all stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for anyone that it fails to cure. Send for list of testimonials.

SOON BE TIME TO DIP SHEEP

The sheep owner who does not use a disinfectant dip is throwing away profits. You might almost as well shear your sheep as not to dip them. Dipping sheep in Kresol-Dip kills every form of parasitic life—mites, fleas, ticks and the invisible germs of disease. It is far better for the fleece and safer for the sheep than lime and sulphur or tobacco dips. Although it is more powerful than carbolic acid, a sheep might swallow a quart of Kresol-Dip solution (1 part Kresol-Dip to 100 parts water) without injury. Kresol-Dip can be used wherever a strong disinfectant, insecticide or germicide is needed. Far better than carbolic acid, copperas or chloride of lime. Kills lice and fleas on poultry and stock; cures cholera in hogs or poultry and has a wider general usefulness than any other preparation of the kind. Let us give you some printed matter.

KICKERS' CORNER

If any one at any time for any reason has any cause to "kick" in any way at anything of any kind, here's the place to say his say. The door is open—write right in and help yourself, free gratis and for nothing—but don't make your "kicks" too long—let's be short, quick fellows that count—and end.

A SUFFERER WANTS TO KNOW

Dear Editor of The Ledger:
We note in your yesterday's impression the mournful wail at the "general apathy" of the citizens in their failing to take steps for the oiling of the streets of our city, and voice the loud lamentations of our City Fathers, who like the sparrow that "sitteth on the housetop," sadly shake their heads at this civil indifference of our people.

Really Mr. Editor, instead of lamenting this condition, why do not our city fathers, like those of every wide-awake town and hamlet in the State, diligently assume and promptly discharge this civil public duty of oiling the streets? Why should each individual resident be directly or indirectly taxed, be it only for one-third of the cost thereof, for oiling the street in front of his property, when the entire public is benefited thereby?

If the city atones rock before my door, gentlemen of the Committee on Streets, you charge the general public fund therewith. You don't charge the public fund with two-thirds and me with one-third of the cost thereof. Because it is a menace to public health, you volunteer to haul from my premises (and actually haul from the premises of many citizens) the debris accumulated for a year, and you charge the general public fund therewith, and all citizens approve of that charge, because it is for the public health. Why not charge the general public fund for the oiling of the streets, which, scientifically considered, is immeasurably more conducive to the public health? If the county, whose duties regarding public health are not so clearly defined as are the duties of the city, can oil its pikes, and, with the approval of the citizens of the county, charge the public fund not with two-thirds of the cost thereof, but with all of it, why cannot the city of Maysville do likewise?

Get busy, gentlemen of the Council, and protect the health of the citizens and promote their comfort by oiling the streets. Let not the bagatelle of a mere one-third of the cost of oiling cause you to balk or hesitate in the performance of a grave public duty. In most Kentucky towns and hamlets the streets have been oiled for a month, and that at the entire cost of the town or hamlet. Don't wait until November to follow suit, do something, and do it now. Your solicitude of saving to the general taxpayer the bagatelle of one-third of the cost of oiling is indeed a magnanimous attitude, but if displayed in matters of far less importance hygienically than oiling the streets, and where vastly more money is at stake, it is believed it will be generally more appreciated by your suffering constituents.

A SUFFERER.

Don't deny yourself the pleasure of seeing "The Sign of the Cross" at St. Patrick's Church Sunday evening.
